## Our Guarantee

Majestic warrants to the owner the repair or replacement of the countertop or any portion without charge if determined by Majestic that the countertop has failed due to a defect in our workmanship.

The warranty cover defects in workmanship such as edge polishing, seam performance, and sink under mounting failure in residential kitchens, bathrooms, and wet bar installations for the time period of ONE YEAR following the date of installation. In order to process a warranty claim, it is necessary to send in writing a description of the problem via email with your name, address, and telephone number to:

[Certainty@gomajestic.com](mailto:Certainty@gomajestic.com)

Once notification of warranty claim has been submitted the countertops will be inspected to determine whether the claim is to be covered by the warranty. If the claim is determined not to be covered by the warranty, a standard service charge will be charged to the owner and no repairs will be done until repairs are quoted and a signed work order has been processed. If the claim is determined to be covered by the warranty Majestic will choose whether to repair or replace the defective item. If Majestic chooses to replace a portion of the countertop, we will attempt to match the color and pattern of the existing countertops, but there will be no guarantee of an exact match. Our obligation under this warranty is limited to the repair or replacement of covered defects in workmanship. In the instance of costs associated with the repair or replacement covered by the warranty that would involve plumbing or electrical disconnect and reconnection Majestic will pay the cost of the licensed contractor involved. All other costs will be the owner's responsibility.

The warranty does not cover color or pattern variations due to differences from samples that were provided or showed to the owner. It does not cover damage due to abuse or normal wear and or construction damage. It does not cover scratches, chips, or stains unless Majestic determines that damage occurred prior to or during the installation of countertops. The warranty does not cover dissatisfaction with color, pattern, or veining of the selected stone or the dissatisfaction of direction of color, pattern, or veining of any piece or in adjoining pieces of two or more pieces of the countertop. The warranty does not cover any natural variations, fissures, or characteristics in color, pattern, or veining associated with natural stone. The warranty does not cover seam appearance or seam failure due to settling of cabinets or structure.
